

VELVAC CAMERA & DVR SOLUTIONS

BLIND SPOT ELIMINATION & FLEET PROTECTION FOR HEAVY DUTY TRUCKS

SAFETY BEGINS WITH WHAT YOU DON'T SEE

VELVAC BLIND SPOT SOLUTIONS ARE THE BENCHMARK IN FLEET SAFETY

Emerging technologies for collision avoidance and driver assistance hold great promise for the future. But even in cases where sensor systems provide the best reaction times, observation of traffic information, routing information and object avoidance all still rely primarily on a clear view by the human eye.

Velvac camera & DVR solutions are designed around the suggested optimal performance recommendations identified by national

organizations such as TMC and NHTSA, and proven through rigorous testing and real-world performance. They provide the driver with dedicated views of blind spots and passing lanes around the vehicle, resulting in an intuitive visual experience that improves safety and reduces the potential for costly and dangerous accidents.
