

Peterbilt Lever Fuel Caps

Peterbilt Fuel Caps

- The aluminum caps are available in both locking and non-locking
- Both products are available in a retail clamshell package and a bulk pack of 10 for fleet sales. The caps in the fleet package are in an individual polybag for single cap sales.
- The locking cap has a single key available
- This cap is a direct replacement for OEM caps offered by Paccar

The caps meet and exceed Federal Motor Carrier Safety Administration (FMCSA) requirements. This product conforms to the relief pressure and leakage rate test as required by 49 CFR 393.67 standards to protect from the inherent dangers associated with fuel leaks.

4" Peterbilt Locking Fuel Cap in Clamshell Packaging

4" Locking and Non-Locking Peterbilt Fuel Caps
