

## ROTARY LATCH OPTION NOW AVAILABLE FOR RKI SERVICE BODIES

The new rotary latches available from RKI are a two stage rotary stainless steel paddle latch with integral lock cylinder and double-bitted key. They offer a free wheeling paddle, which allows the paddle to be pulled when the latch is locked without opening the door. These latches have been tested for strength, reliability and durability in over a million cycles.

Rotary latches can only be used on doors with the cutout for rotary latch.

Part Number	Description	Application	Unit Cost
BLTARS BDY	LATCH INST-ROTARY BODY	Service Body Doors (Vertical, Horizontal, & RFC)	\$20
BLTARS CAN	LATCH INST-ROTARYKEYCAN	Canopies (3-pt latching) <sup>1</sup>	\$5
BLTARS HSS	LATCH INST-ROTARY HSS	Hot Stick Shelves	\$20
BLTARS RAD	LATCH INST-ROTARY RAD	Rear Access Doors	\$20
BLTARS SIDE	LATCH INST-ROTARY SIDE	Service Body Side Only	\$20
BLTARS SLBDY	LATCH RPL-ROTARY BODY	Replacement Rotary Latch for Service Bodies <sup>2</sup>	\$50
